BOOK CREATOR[®]

Welcome to Book Creator

This quick tutorial will take you through creating your first book.

1. Add content to the page

Tap on the + button to add an item to the page. You can choose photos, video, text and sound or draw and write with the pen.

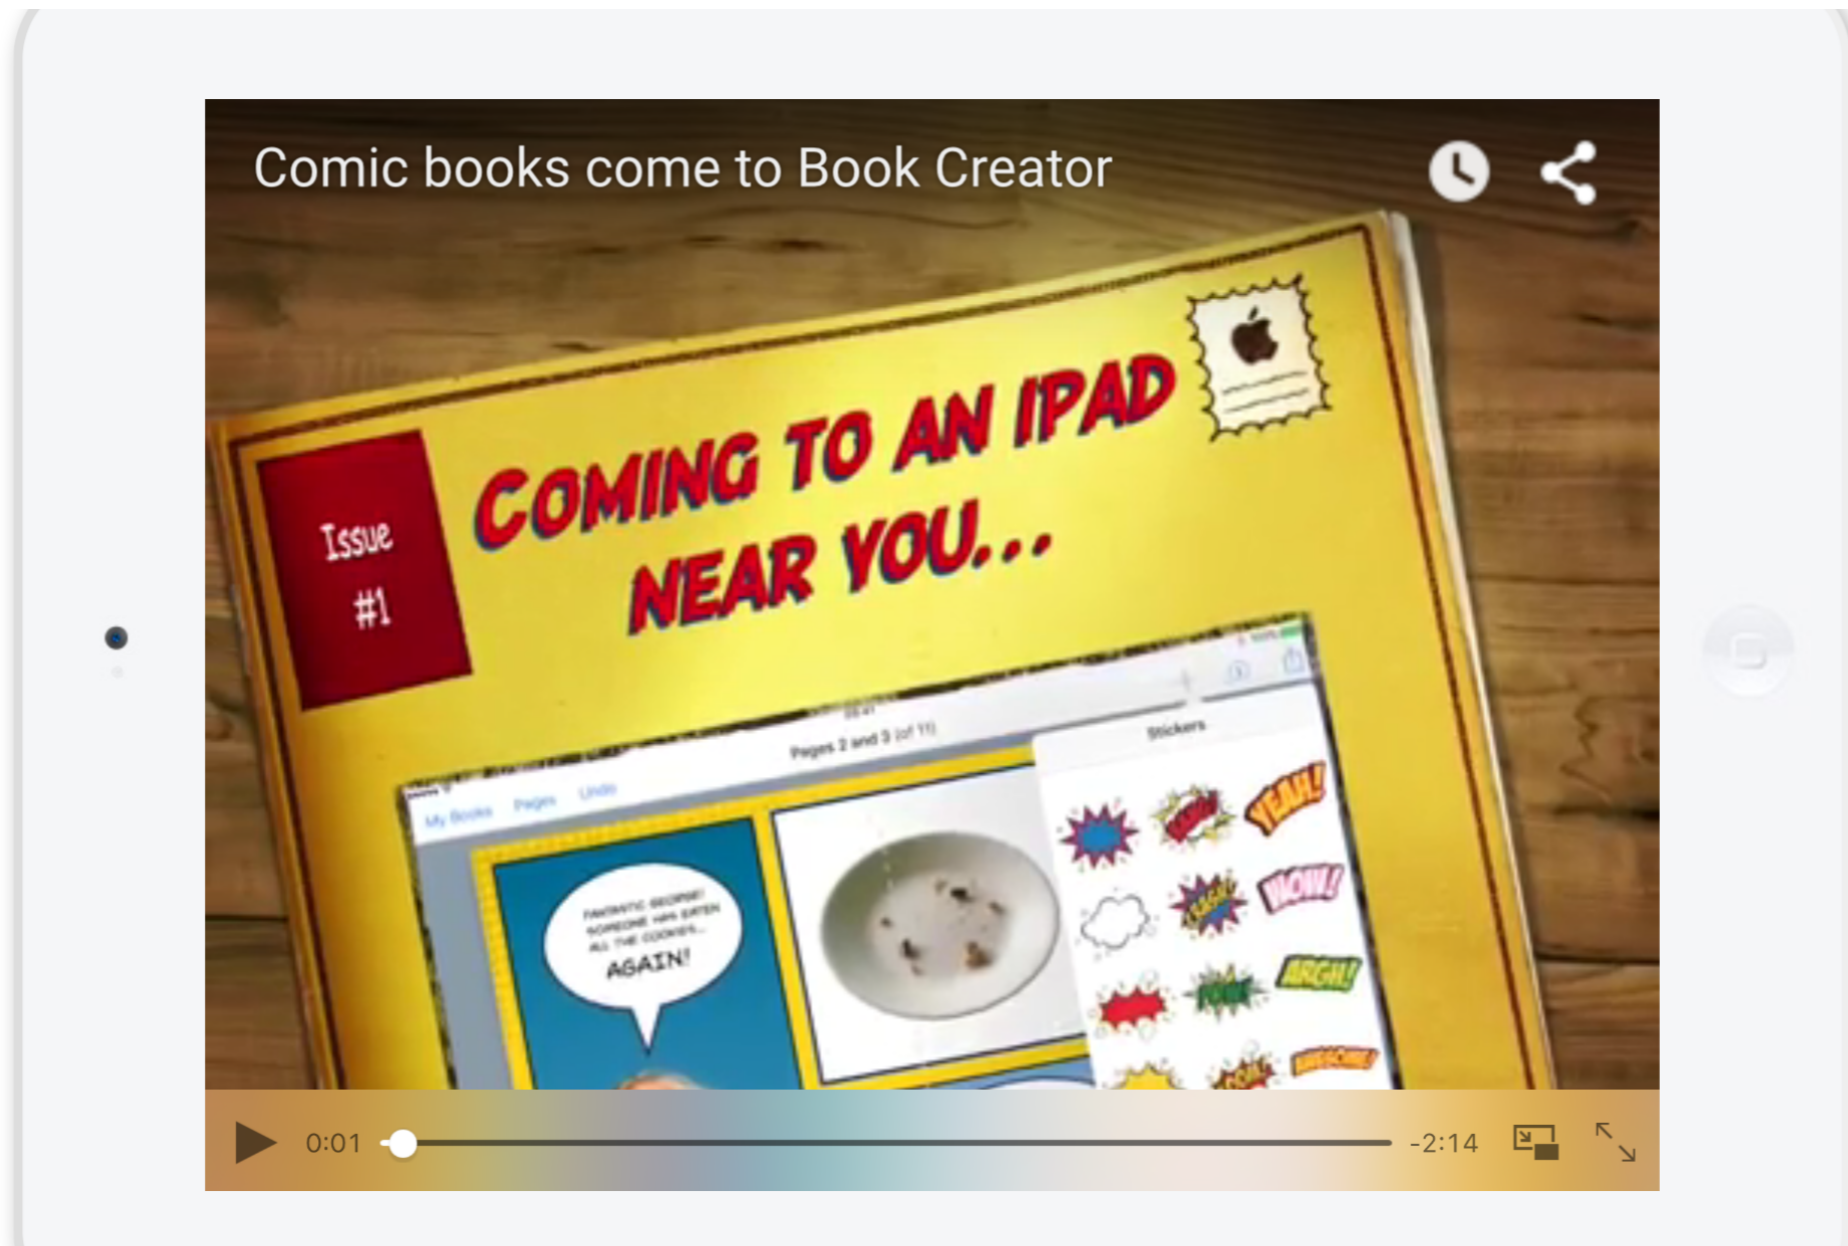

2. Position content

You can move any item around the page with your finger, and resize it using the blue circles.

Tip: You can also rotate images and text with a two finger twist.

Explain Everything

von Explain Everything PLUS vor 2 Jahre NOCH NICHT BEWERTET

We're building great learning tools for every student on the planet.

Our mission

Every person on earth deserves access to free, powerful, and inspiring learning tools - and our mission is to build them.

Quizlet's free study tools and apps are used by over a million students and teachers a day in every country – from grade school to grad school, language learners to vocational students, at home and in the classroom.

To build the very best study tools, we listen obsessively to our users, reading thousands of feedback emails a week, and doing everything we can to improve Quizlet based on their suggestions. We visit classrooms regularly, to talk to students and teachers and see Quizlet in action.
