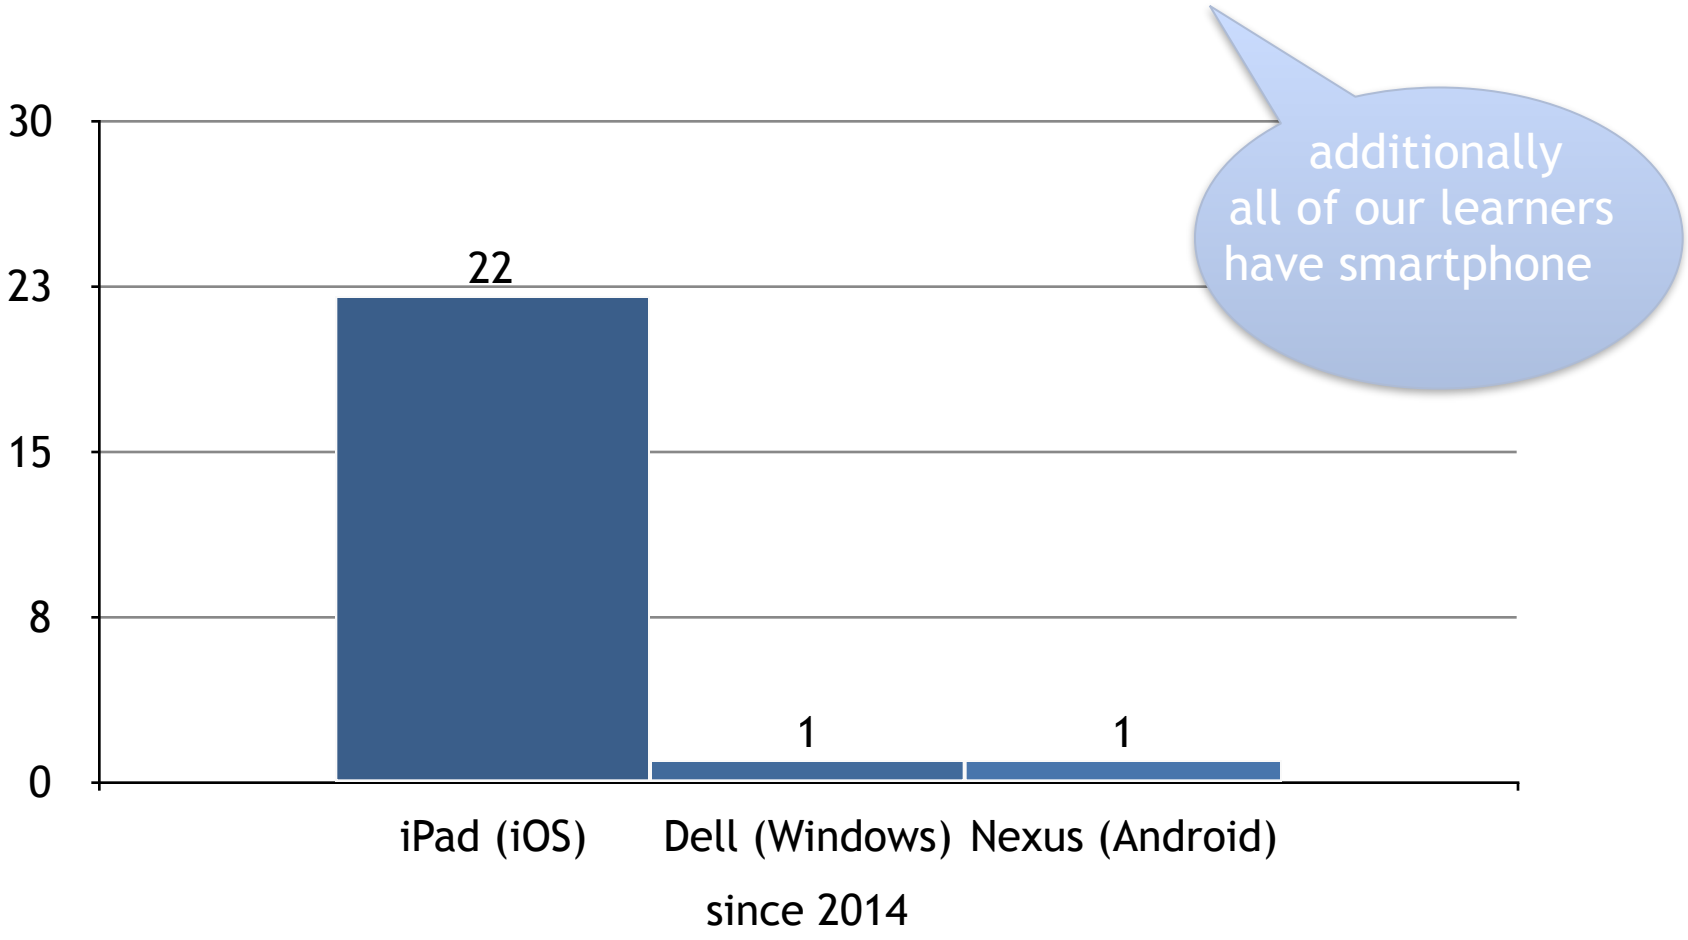
Device Managent - our experiences

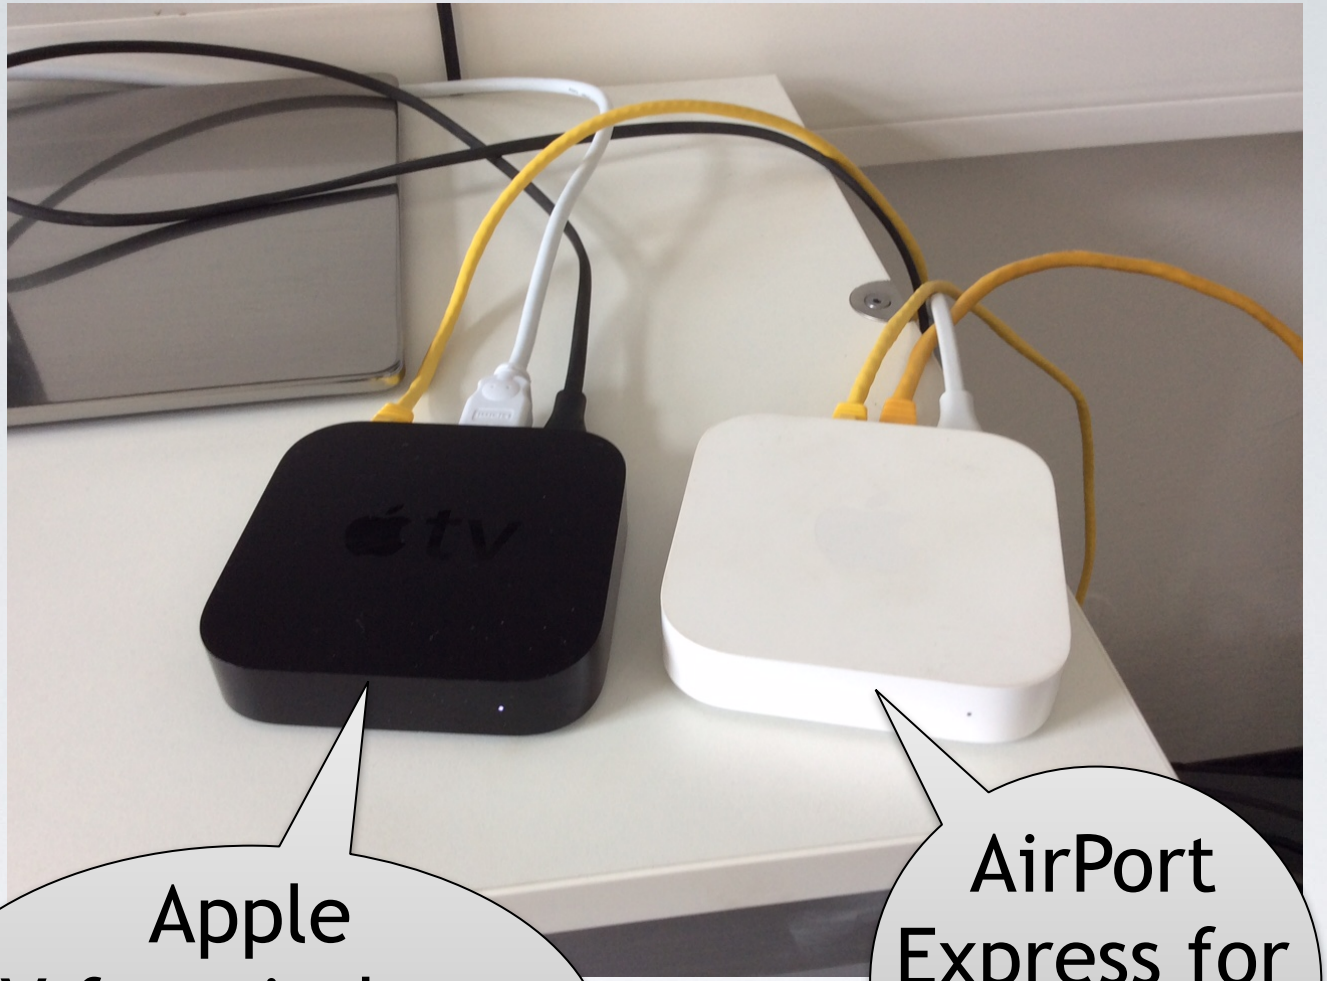
Background

- Our qualifikation has a strong focus on computerskills - there are 5 training rooms with 8 PCs per room
- Office skills (ECDL)
- Lernprogramms
- Assistive Technologies
- since 2 years tablets for different purposes (Foto, Video, learning apps, selfmanagement, documentation, tutorials...)

Our mobile devices



iPad training room with TV



Apple
TV for wireless
projection
AirPort
Express for
WIFI

2 charging stations for 10 devices each

Requirements for device managment

- Storage
- Purchase and allocation Apps
- Storage
- Backup
- Restrictions
- ....

BYOD

- Bring Your Own Device means that user own the device
- User are responsible for their devices
- User buy apps and store the date on their devices - sometimes common storage as well
- Devices can be integrated in a central device management (including restrictions)

versus UOD

- Use Our Device: schools own the devices
- Schools are responsible for purchase and management
- They care about storage
- Easier to set restrictions
