2. Google Maps will open.

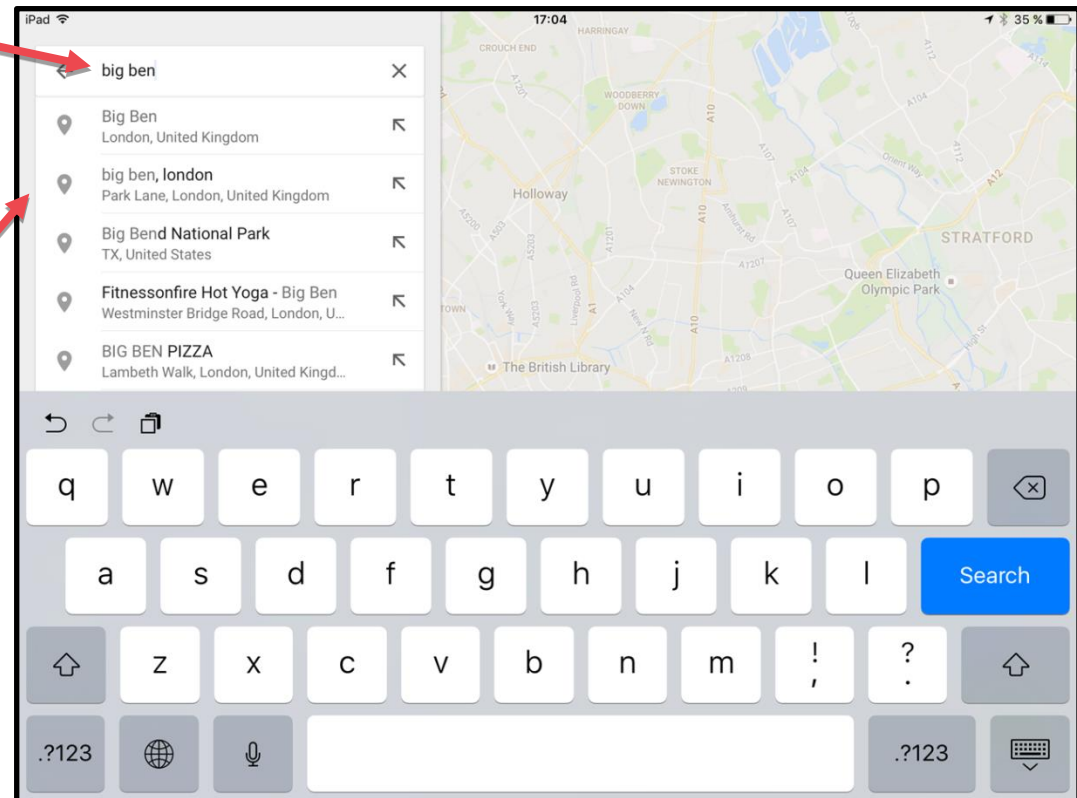

Finding places on the map

1. Tap on the **Search** bar.

2. Type in the address.

3. Google maps is suggesting different places.

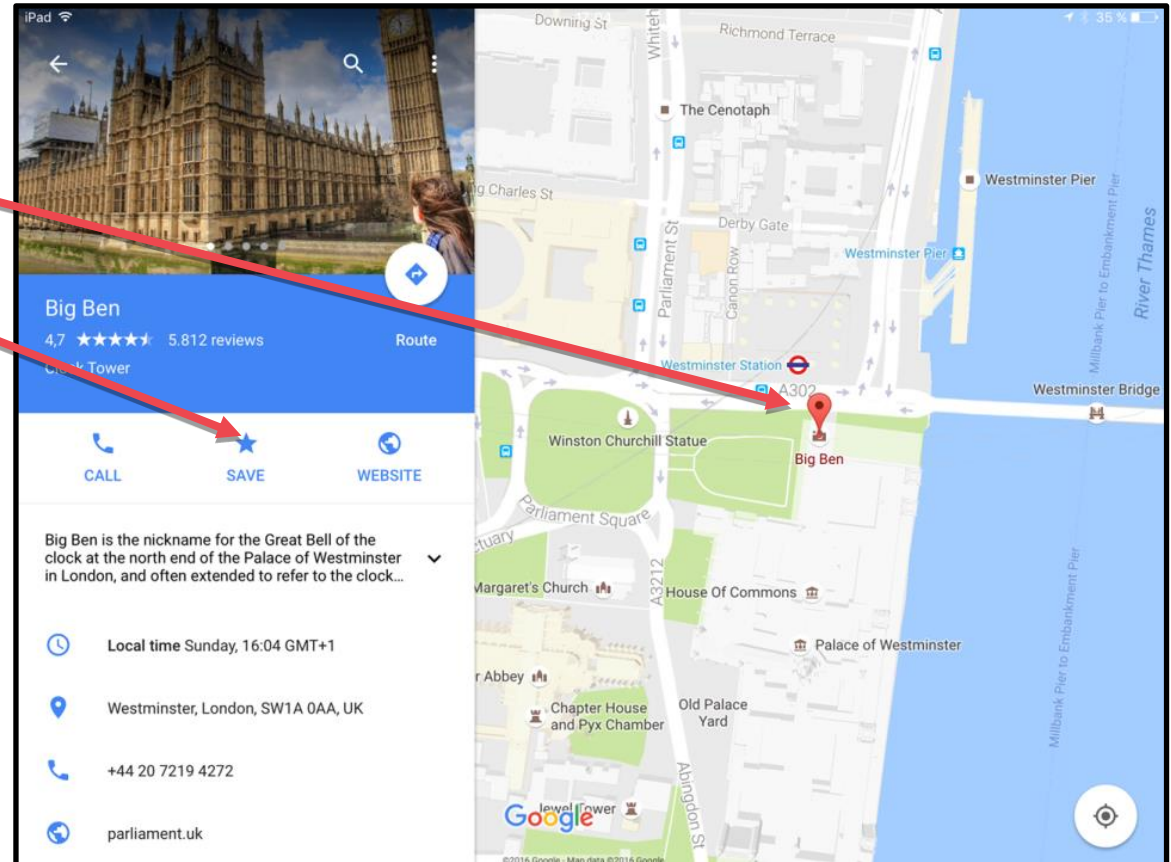

Choose the right place
from the list
or write the whole address.

3. Here you can see the location of the address.

4. Tap on the **Save**-button.

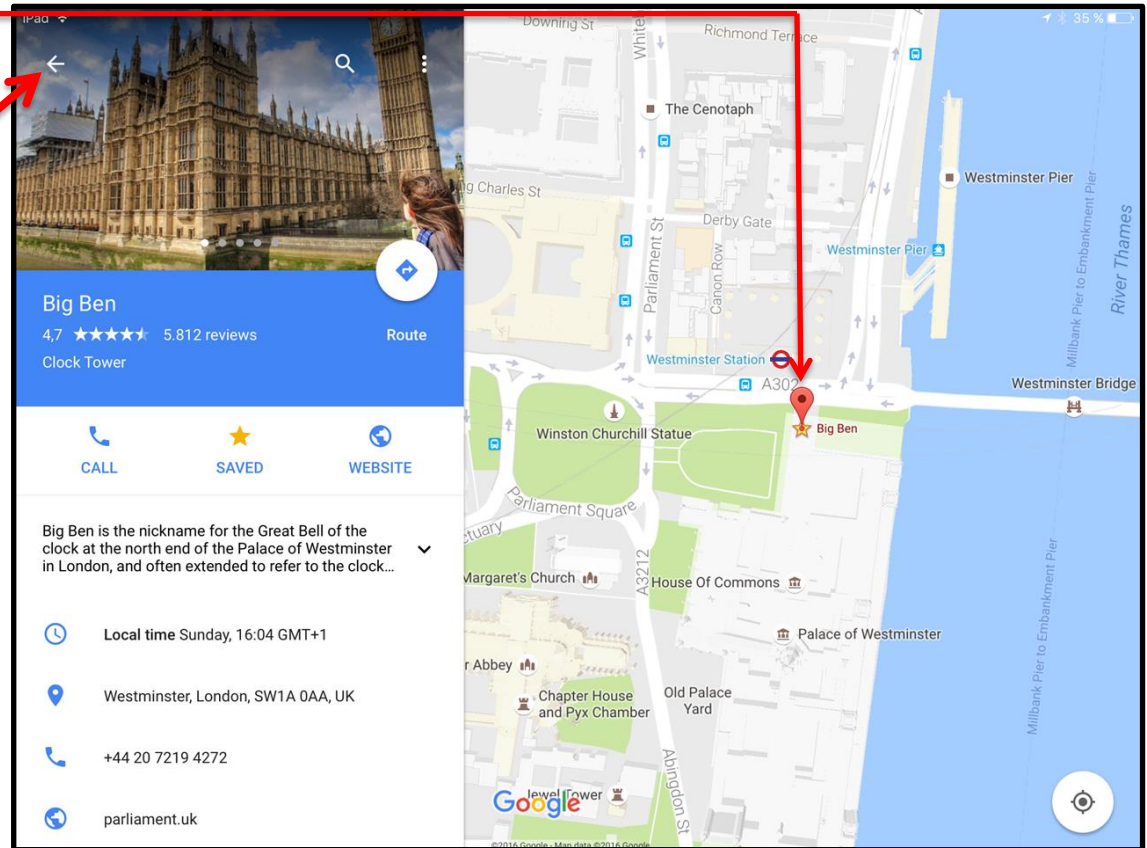

It will save the location for later use.

5. Now you can see the location as a star on the map.

6. Tap on the **Arrow**-button.

Now you can search for another location.

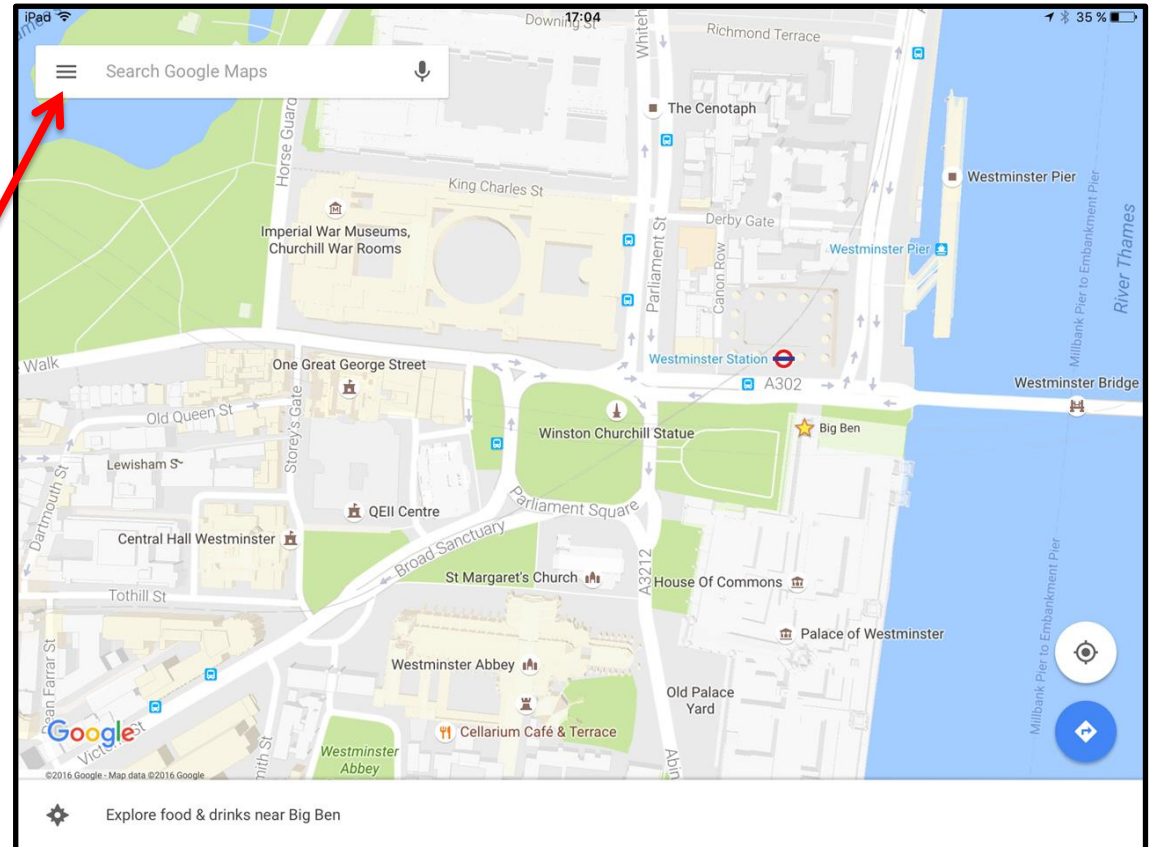

Offline use

You can save a map for offline use.

This means that you can use the map without internet connection.

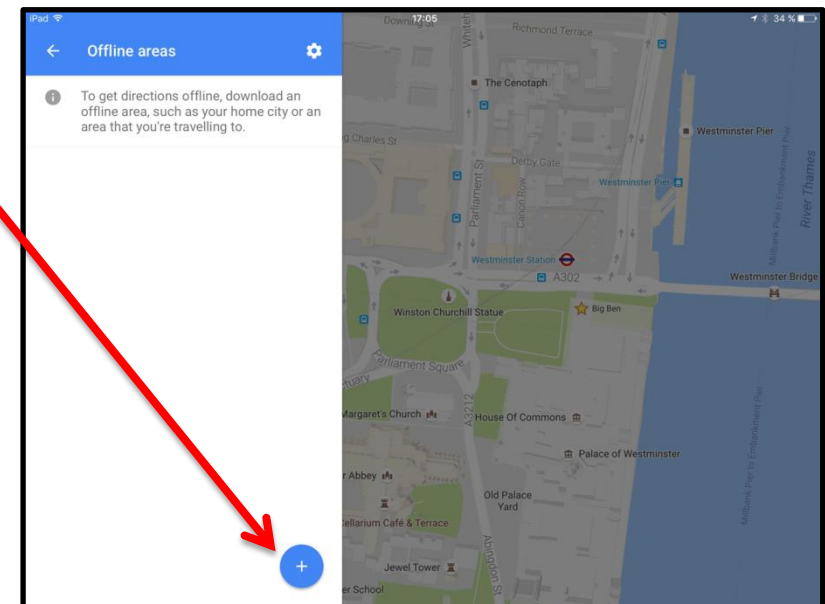

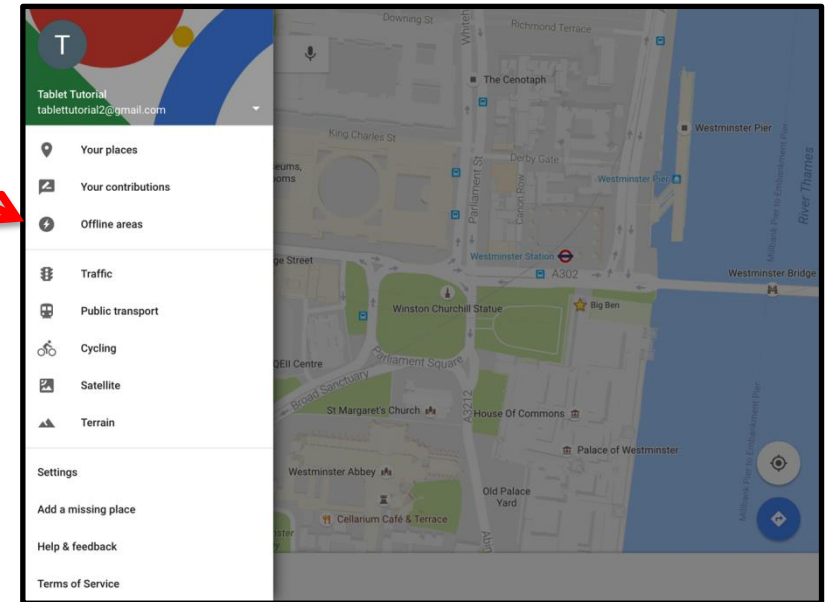

1. Tap on the three lines next to the **Search** bar.

2. Tap on **Offline areas** -button.

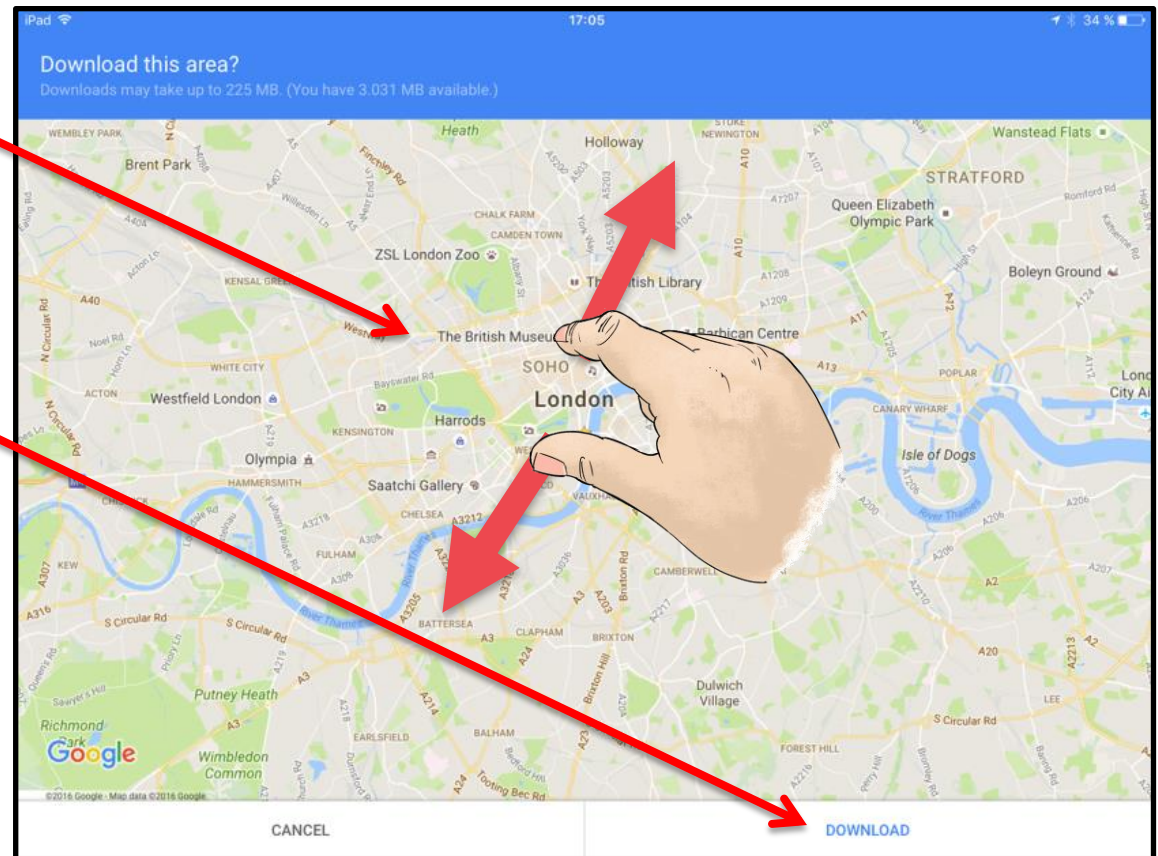

3. Then tap on **Plus**-button.

Now you can save
a new offline map.

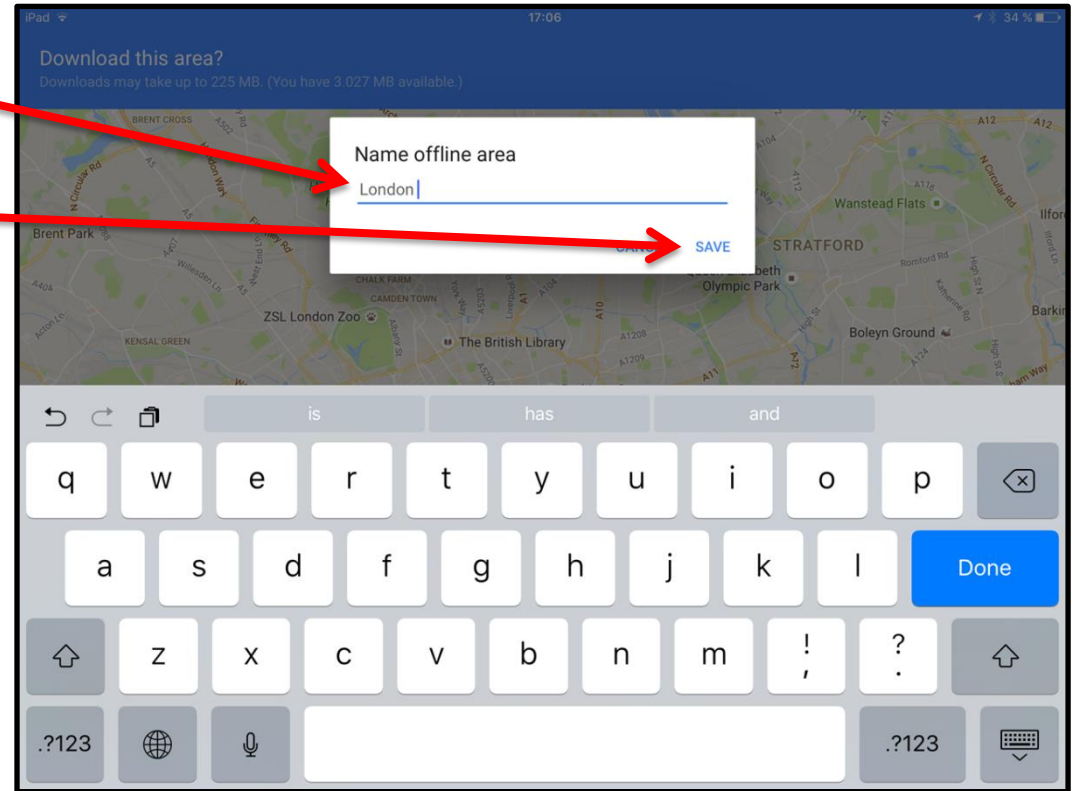

4. Zoom in or out
and adjust the part of the map
you want to save.

5. Tap on **Download**-button.

6. Give your map a name.

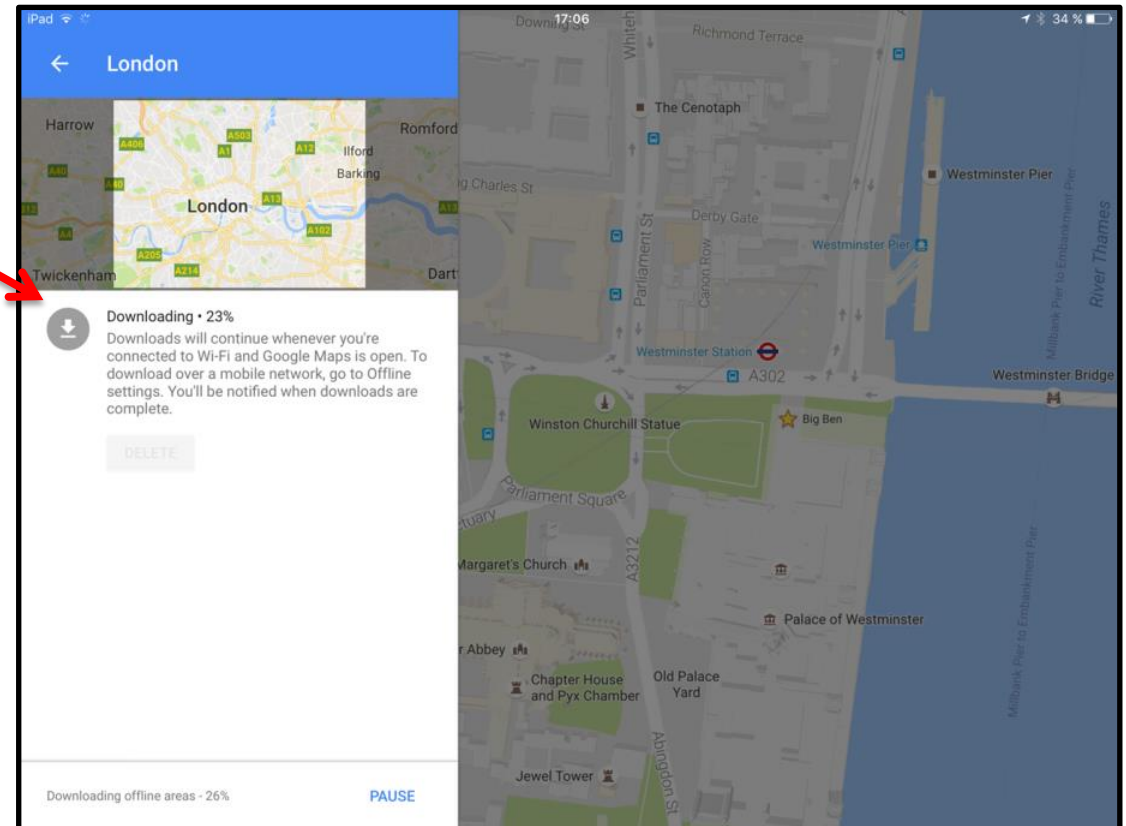

7. Then tap on **Save**-button.

8. Now your offline map is downloading.

Notice:

Offline maps will only be available for 30 days. After that you have to renew them.
