# iPad's Accessibility Settings in Easy-to-Read Language

Larger text and button shapes

Karl Bäck

Using Accessibility Settings

1. Tap on the **Settings**-app.
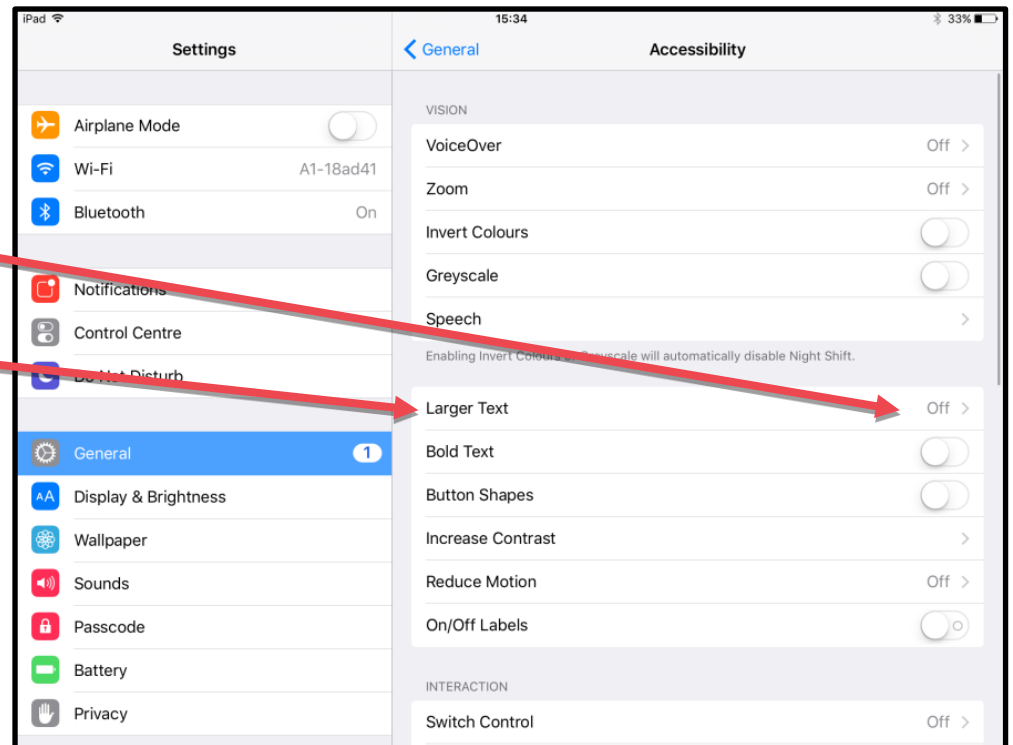

Settings-app opens.

2. Tap on **General**-button.

3. Then tap on **Accessibility**-button.

5. Larger text is
   not in use,
   it is Off.
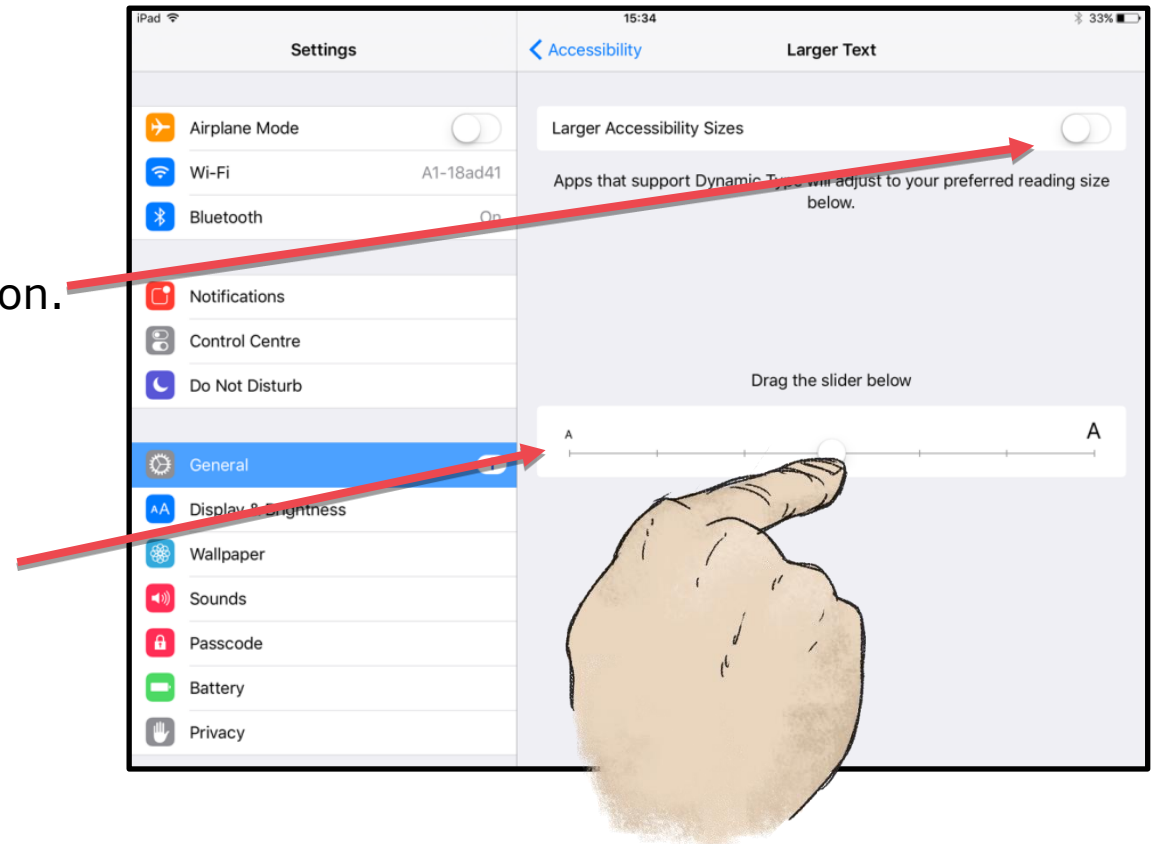

6. Tap on **Larger Text** -button.

7. Let's activate
   the larger text -function.

   Tap on

   Larger Accessibility Sizes –button.

8. Edit the text size

   by dragging the slider

   to right or left

   until you are happy with
   the text size.

   You can instantly see the change.

9. Then tap on
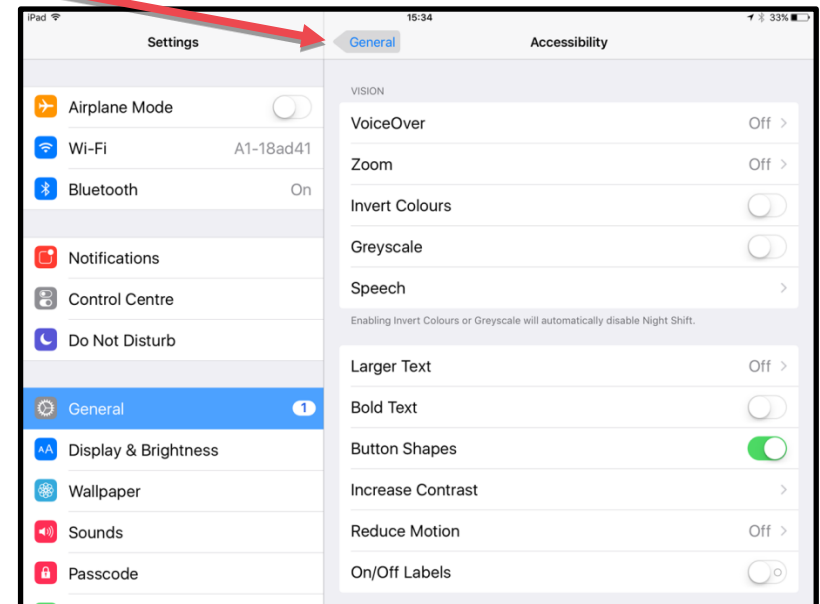

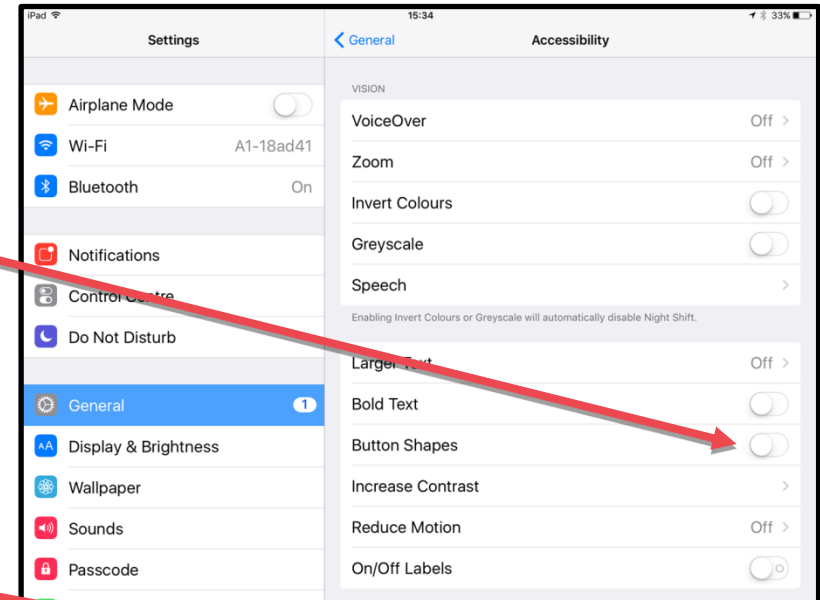

the **Accessibility**-button.

Sometimes it is quite difficult to see

the difference between

a text and a button,

like this **General**-button.

10. Let's make Buttons stand out better,

   tap on **Button Shapes** -button.

   Now you can see

   the buttons more clearly

   from the background.
