

Yes we can!

Success stories

Tablets in inclusive education

Plants on the school yard

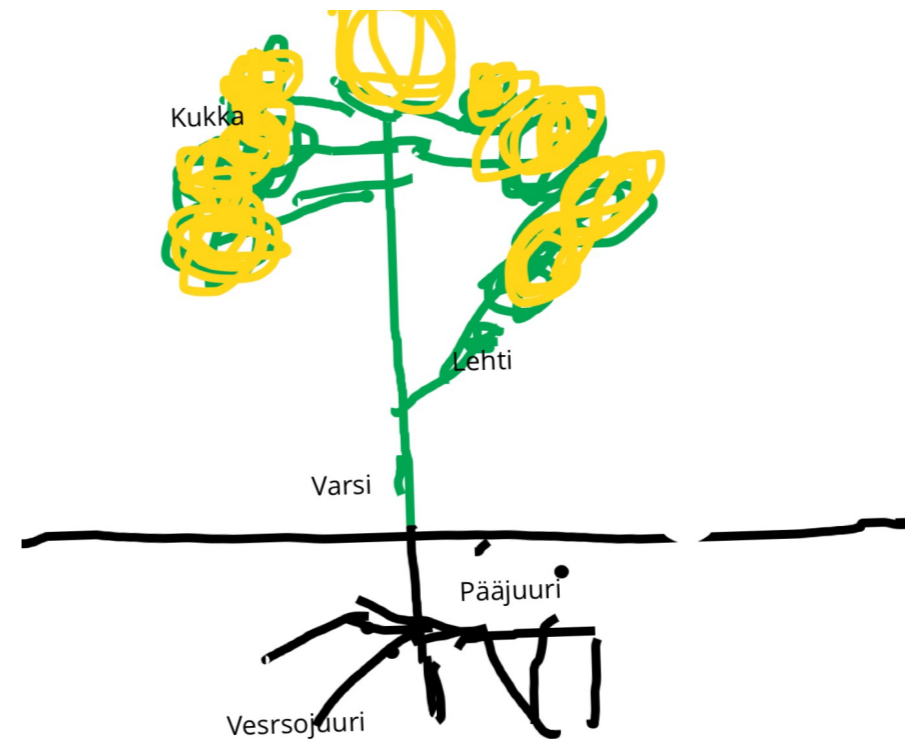

Learning Objectives

- Learn to recognize weeds and other plants
- Learn to understand differences of weeds and other plants
- Learn to know parts of the plant
- To learn what the plant needs to grow

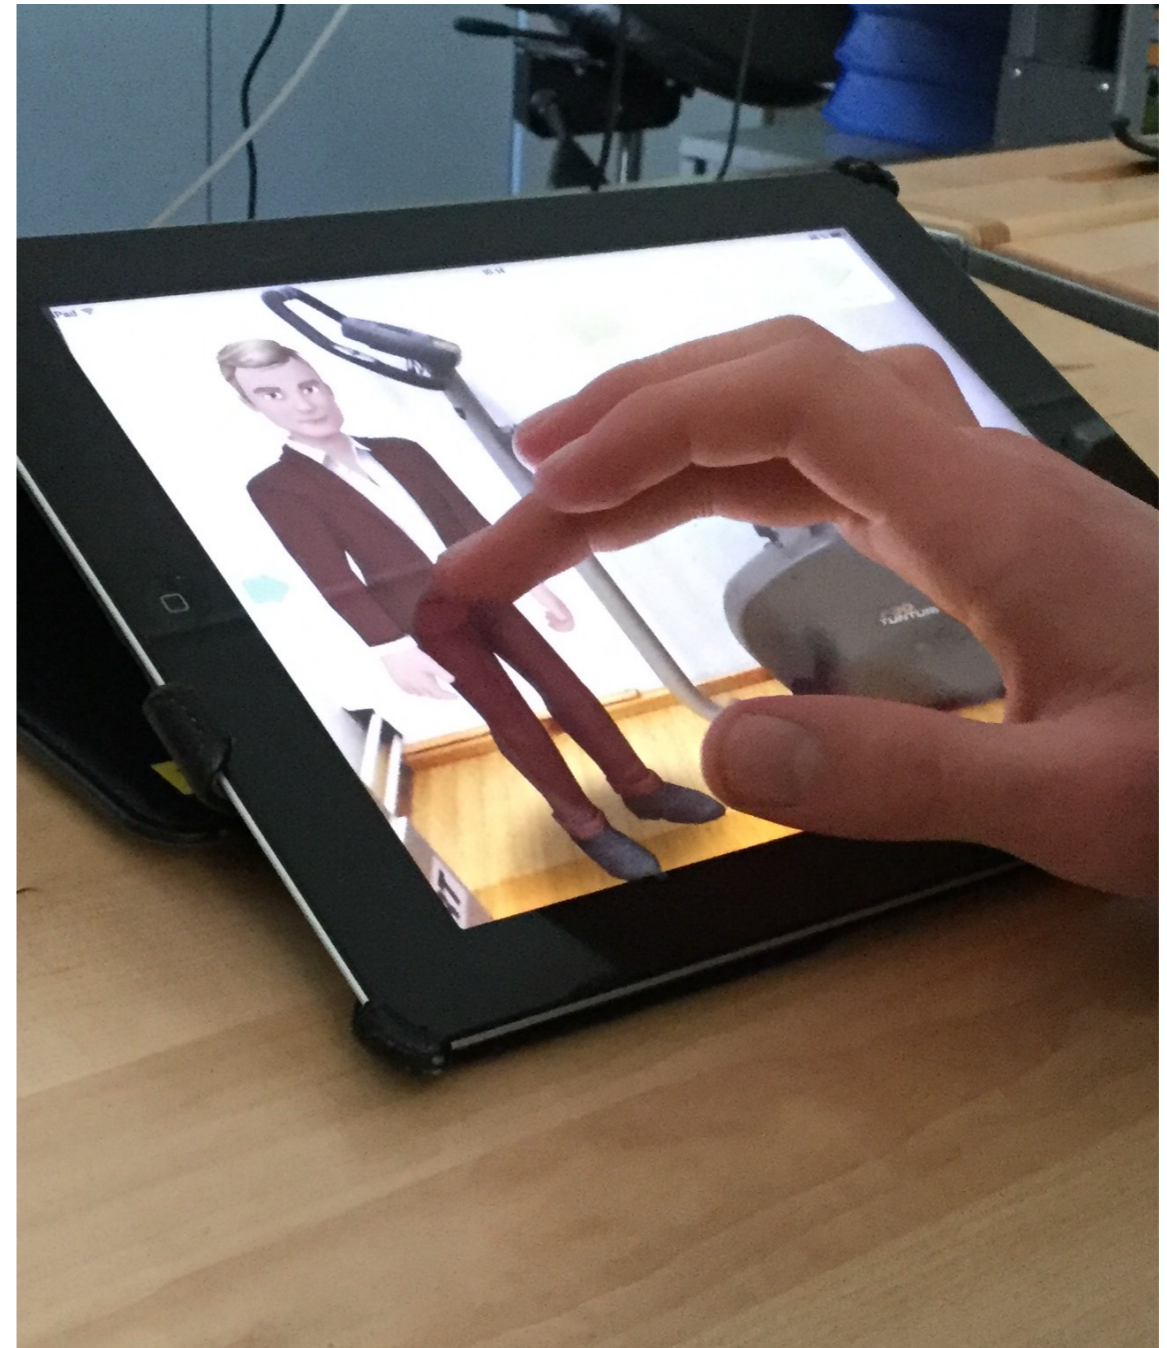

Outcomes

- The students make their own biology book of weeds and plants using iPad Book Creator
- Collecting plant samples, pressing and putting in to the notebooks
- Students make presentations of their works
- Students take care of the school yard
- Identification of plants (dried samples, photos, pictures)
- Kahoot quiz - great fun!

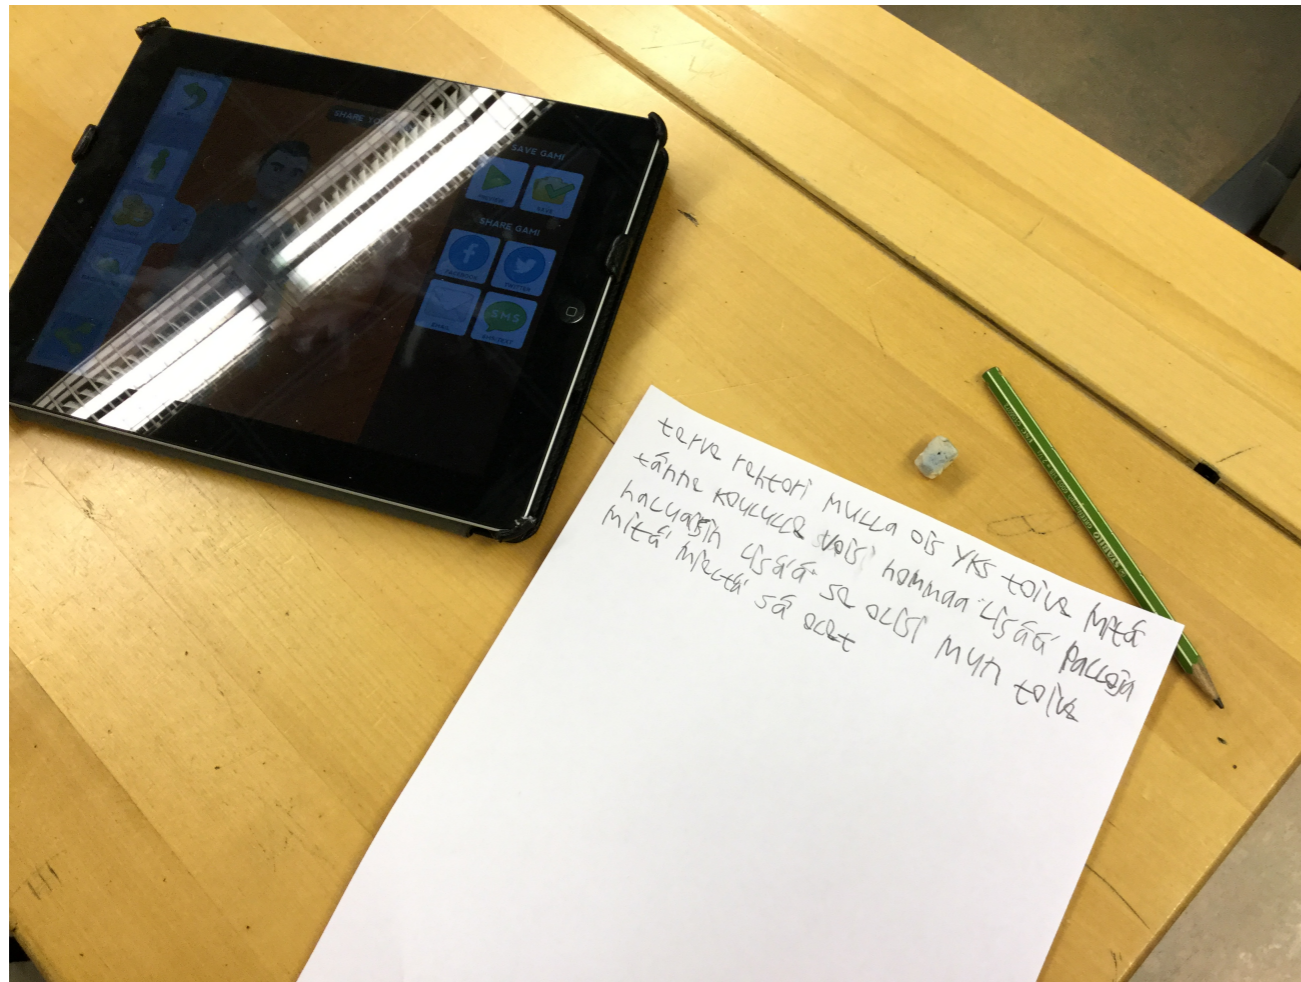

Using Tellagami

- Picture, character and speech
- Task: to write a speech with two different styles -> recording the speech
- Skills to be practiced: different styles to argue
- Combination: the biology of human and finnish language

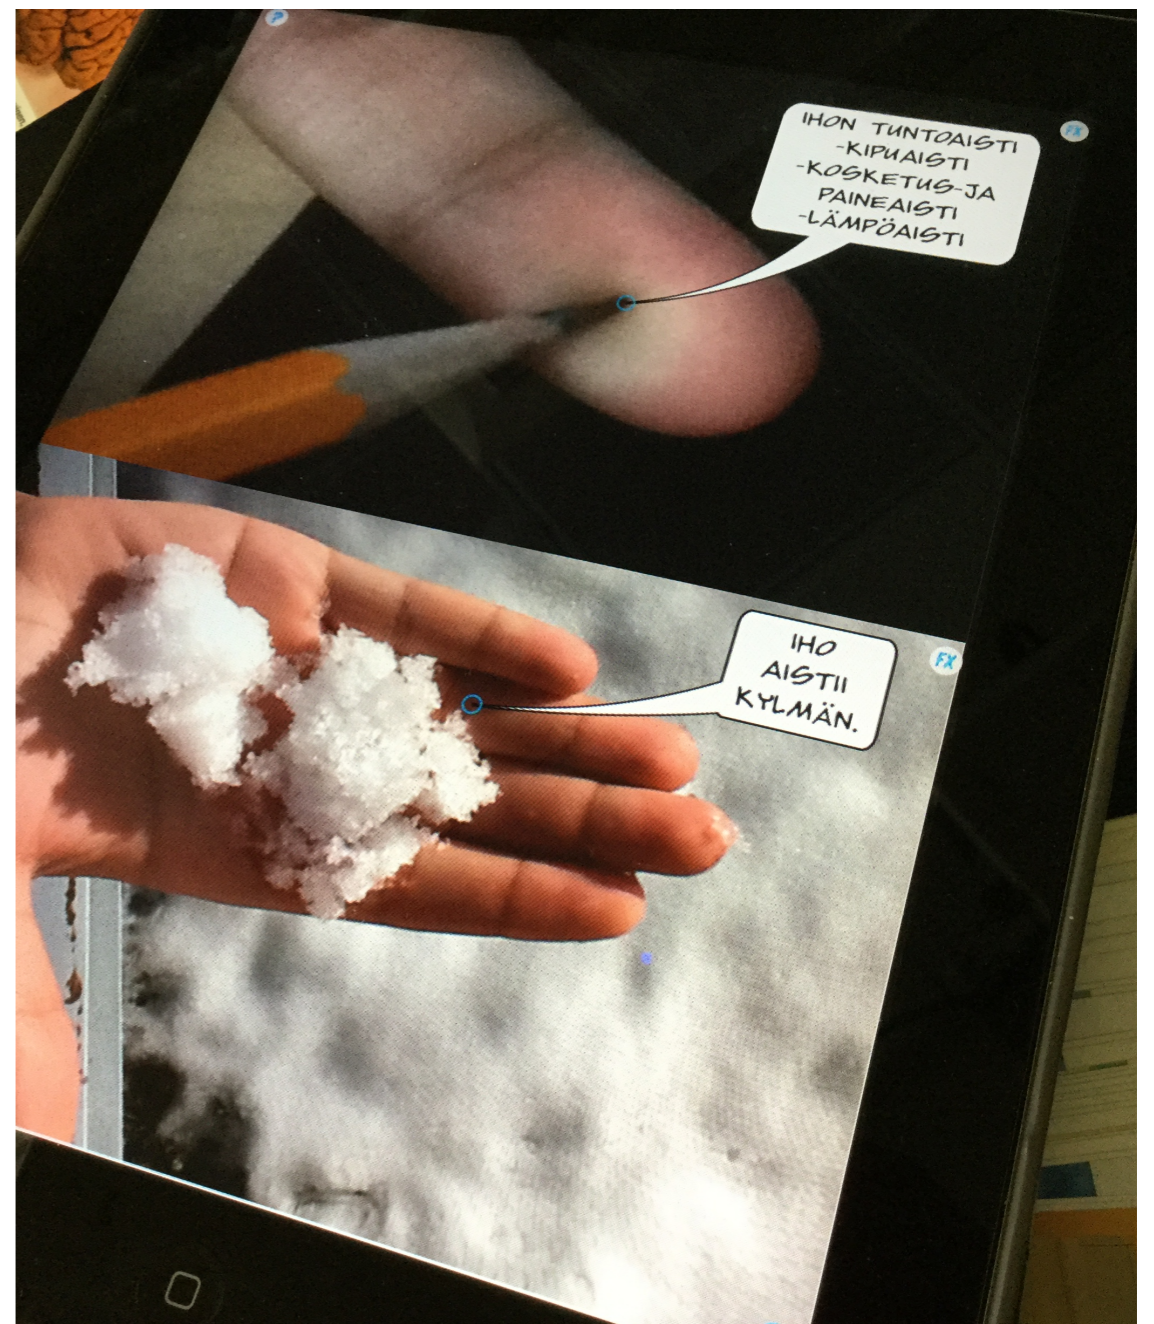

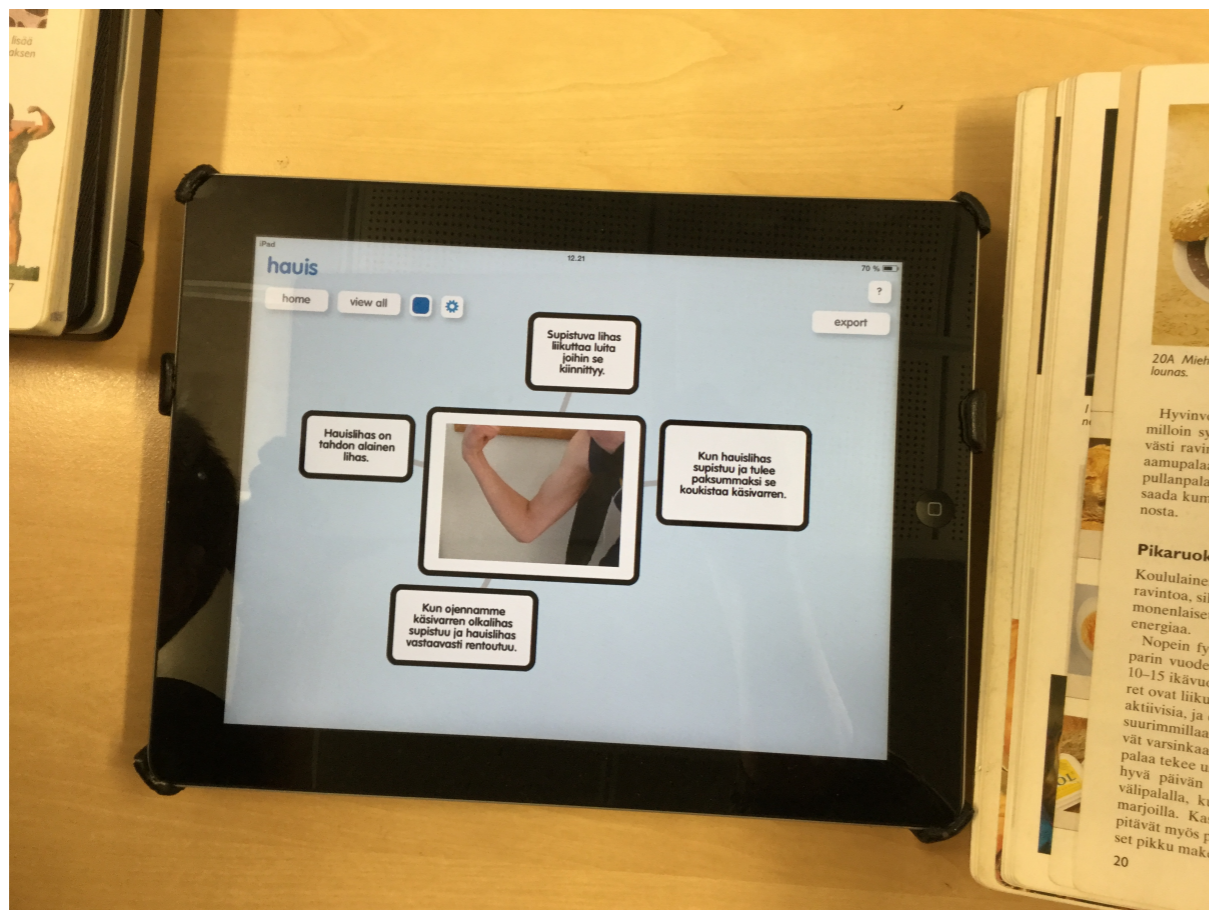

Still using the old-fashioned pen
- tradition meets technology!

Comic book & Popplet

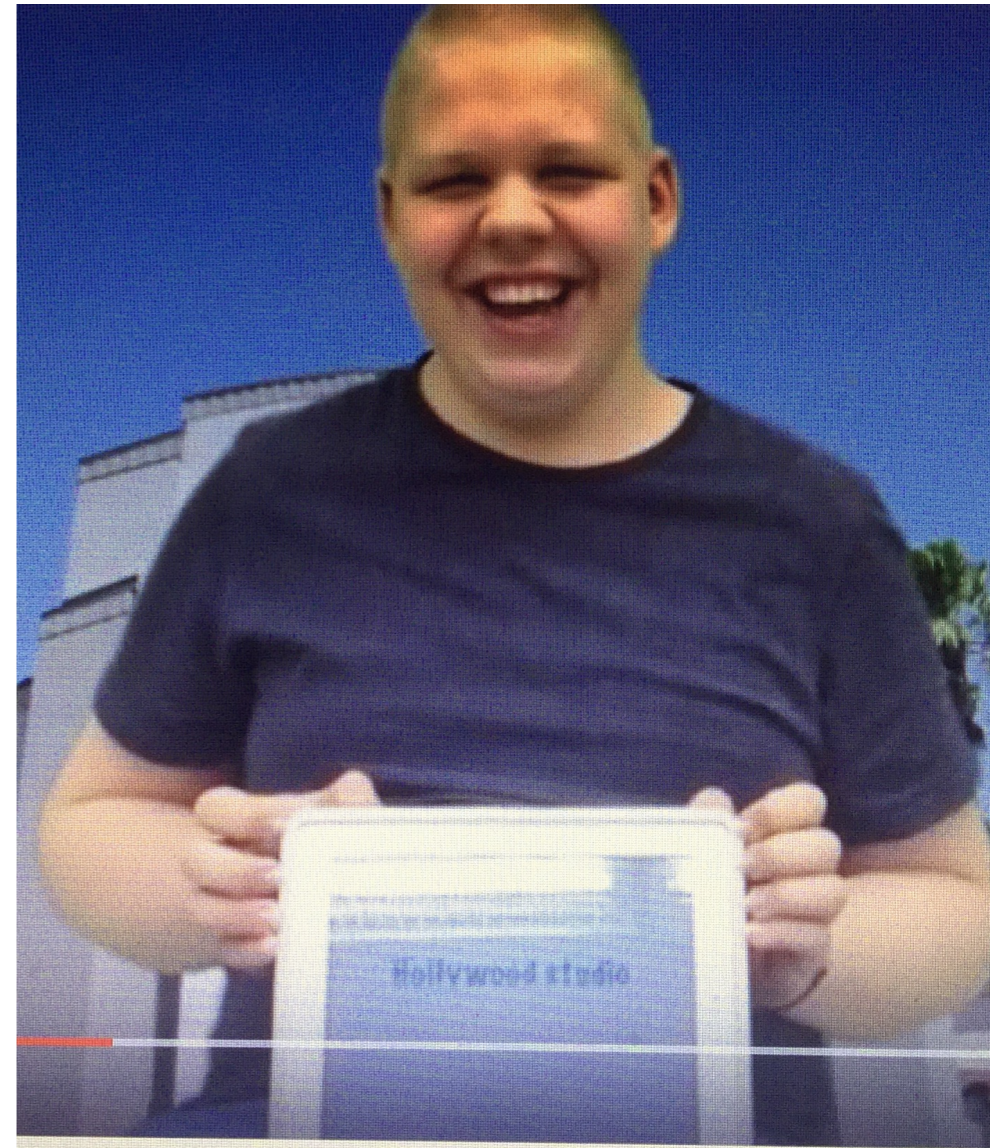

- Experiments and own pictures
- Logical thinking
- Different concepts, understanding the links between different issues

World without boundaries

- Accessible for everyone

- What accessibility actually means in practice?
- Common project between ICT-students and students with special needs
- Green Screen by Do Ink & iMovie
- <https://youtu.be/Qo8nznIlSCQ>

Action sessions in vocational training

- Two groups: practical nurses students and students with special needs
- Practical training: Action sessions for students with special needs
-> sessions were filmed and evaluated
- Nearpod, iMotion and iMovie

New learning environment: guru-cafe

- The new curriculum 2016 in Finland: ict is involved in every subject
- Some pupils are trained guru-students: training, Guru-academy with specific supporting material
- To increase learning and doing together
- Peer learning
- Open during breaks

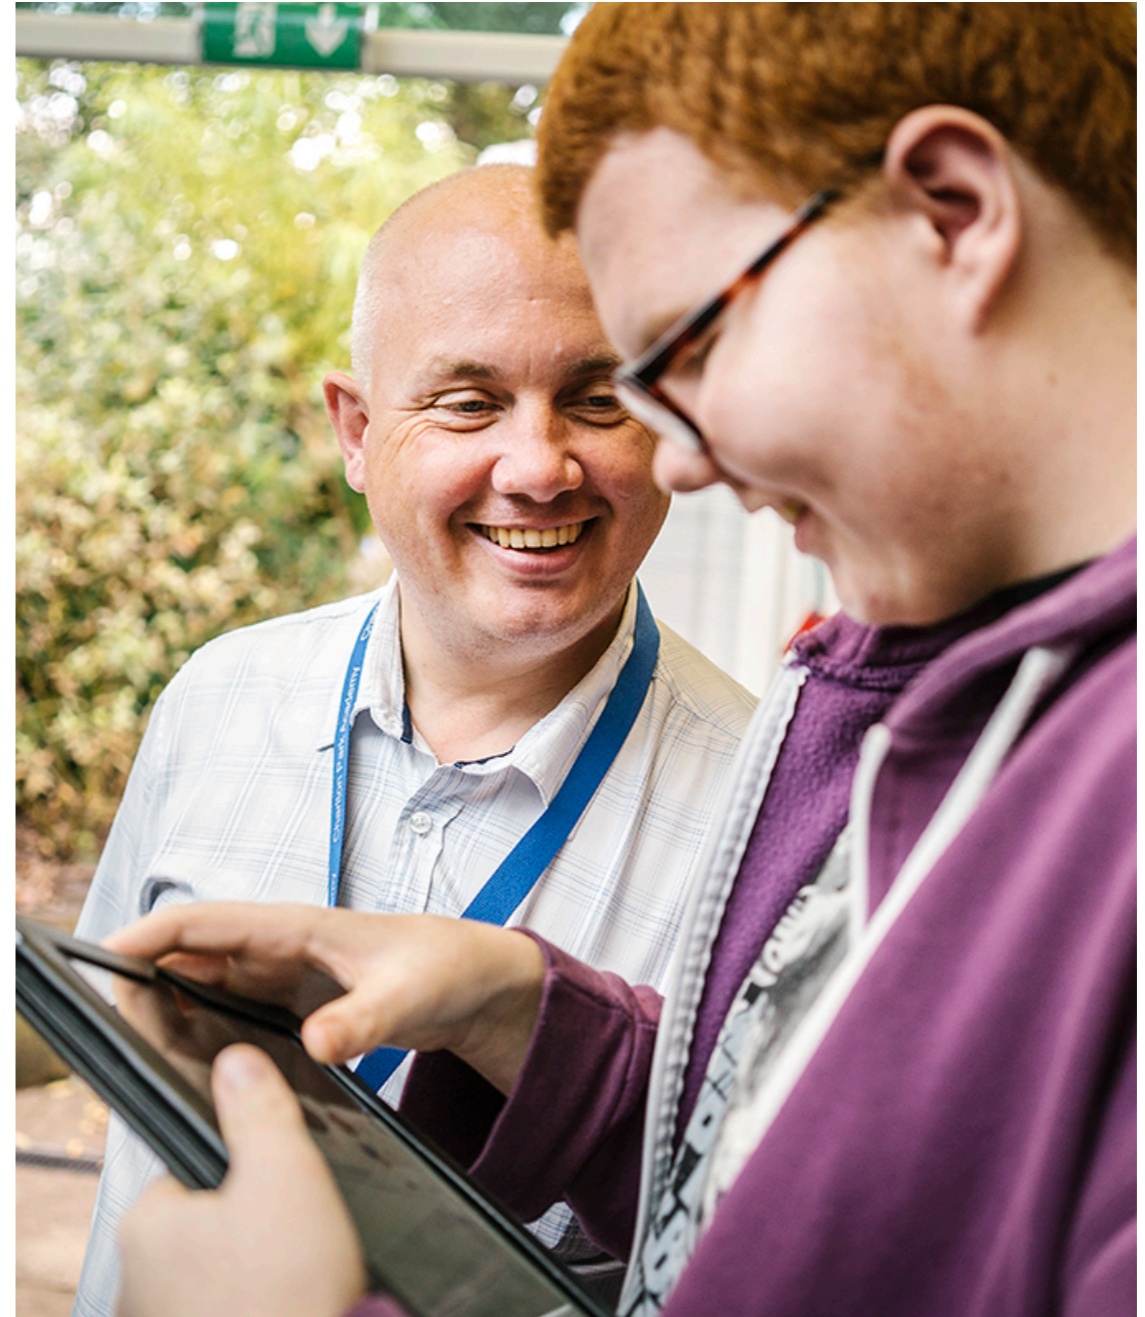

Person centred planning

- Easy to use wikis; sharing important things with others (text, pictures, videos, recordings)
- Students invited their circles of support (families, friends, other professionals) into their classes to introduced their wikis and taught them how to use their wikis

Beneficial features of tablets

- Increased independence and engagement
- Confidence and self-esteem, positive self-image
- Improved knowledge to use different type media
- Easy of use and portability of the device
- Taking and sharing media straight into application

Digital stories and comics

- Creative learning
- Visual learners
- Books published on iTunes: Superheroes, The Three Little Pigs, Escape to Earth
- <https://itun.es/fi/X1P7-.l>
- iMovie and Minecraft together: <https://vimeo.com/106307974>
